PROFILE

Front-End Developer with 4+ years of experience building web applications using React, Next.js, Vue.js, and TypeScript. Experienced in developing scalable user interfaces, collaborating with cross-functional teams, and delivering production features for high-traffic products.

PROFESSIONAL EXPERIENCE

Alibaba Travels Co

Aug 2023 – May 2026 | Tehran

Full-time · On-site

- Owned the frontend development of the **Tour** vertical, delivering and maintaining booking features across multiple user flows.
- Stabilized the **Hermes Seller Panel** by resolving legacy build issues and improving dependency management without upgrading Node.js.
- Fixed a stale-pricing bug across the Group Tour booking funnel by rebuilding its caching/revalidation layer and integrating a new order-registration service, lifting funnel conversion rate from **0.09 to 0.40**.
- Developed **A/B test** variations to support product experiments and measure user behavior.
- Built the **Order Change (Re-issue)** flow for tour and hotel bookings with complex business rules, a multi-state approval workflow, and time-boundary validation.
- Developed a **secure chat platform** and supplier performance features, helping reduce call center volume and improve platform NPS.

MaadCo

Jul 2021 – Jun 2023 | Isfahan

Full-time · On-site

- Developed a modular calculator for industrial monitoring tools using the **Factory Design Pattern**.
- Redesigned the main dashboard, reducing rendering time by **40%** and improving the user experience.
- Added unit tests for core frontend logic, improving reliability and reducing regressions.
- Implemented **PWA** features and push notifications with offline support.

PROJECTS

YogaFlow (Yoga Studio Management MVP)

Jun 2026

Next.js, TypeScript, Prisma, Tailwind CSS, Docker

- Built a SaaS application for managing students, classes, and attendance.
- Implemented automatic session tracking using **Prisma** to manage attendance data.
- Set up a **GitHub Actions** CI pipeline to automatically run tests before deployment.
- Leveraged **AI coding agents (Codex)** to accelerate development, documentation, and refactoring while maintaining code quality.

Smart Gold Board (Real-time SaaS Platform)

Jun 2026

Next.js 15, TypeScript, SSE, Zustand

- Built a real-time dashboard for gold shops using **Next.js** and **TypeScript**.
- Implemented **Server-Sent Events (SSE)** for smooth real-time price updates.
- Implemented tenant-specific branding and state management with **Zustand**.
- Built a **PWA** with offline support for reliable operation during network interruptions.

SKILLS

Languages & Frameworks

React, Next.js, TypeScript, JavaScript, Node.js, Vue 3, Nuxt.js, Tailwind CSS, Storybook

Backend & APIs

REST APIs, Swagger / OpenAPI, Strapi, Prisma ORM

Testing

Jest, Vitest, Playwright

Developer Tools

Git, Vite, pnpm, GitHub Actions (CI/CD), Sentry

Architecture

NX Monorepo, Feature-based Architecture, Clean Architecture

Web Technologies

PWA, Server-Sent Events (SSE)

Performance & SEO

Core Web Vitals, Lighthouse Optimization

Experimentation

A/B Testing

EDUCATION

Bachelor of Science (B.Sc.) in Computer Engineering

University of Isfahan

Sep 2018 – Sep 2022
